## Senior Manager experience

### Senior Manager

Deloitte Digital  
London, UK  
May 2025 - Now

- **AI & Data Strategy for Global Brands:** Lead the Lego AI Strategy, partnering with cross-functional stakeholders to translate complex business needs into deliverable AI-enabling priorities and agentic workflows.
- **Agentic Flow Orchestration:** Architect and deploy advanced GenAI and LLM systems, ensuring underlying datasets are structured, governed, and "AI-ready" for downstream consumption.
- **Stakeholder & Delivery Management:** Bridge the gap between technical execution (using tools like Claude Code, Cursor, and LangChain) and executive business value, fostering a collaborative delivery culture.

### Manager

Deloitte Digital  
London, UK  
Aug 2021 - Apr 2025

- **AI Product Innovation:** Developed 'CodeGryphon', an LLM-powered repository analyser built with Python, LangChain, and StreamLit, turning complex, unstructured code data into actionable insights.
- **Enterprise Platform Leadership:** Led the technical delivery for Dyson AEM components and managed D.Com WebCore Vitals, driving data quality, system optimization, and consistent business semantics across global platforms.
- **Team & Capability Building:** Mentored and managed multidisciplinary engineering teams, acting as a certified Deloitte Apprentice Architect to scale internal technical standards and delivery capabilities.

### Senior Consultant

Deloitte Digital  
London, UK  
Jan 2020 - Aug 2021

- Part of the Deloitte Digital recruiting team for new engineers
- Tech stack: **React, Redux, RTK, SASS, Cypress, Jest, Webpack, NodeJS, Native WebComponents**
- Frontend lead at Linklaters project - Nakhoda
  - Used by the **leading 500 Fortune** companies
  - Leading a team of **7 engineers**
  - Since I joined the project we stabilised the codebase, fully tested the application, documented the codebase and built new features that attracted new clients like **HSBC, NEOM, CITI, McKinsey and BNP Paribas**

### Developer and UI/UX Designer

Qadre  
London, UK  
Jul 2018 - Oct 2019

- Tech stack: **React, Webpack, NodeJS, GraphQL, Gatsby, Storybook and Styled-Components**
- Developed the firm's design system to use across the company-wide applications
- Conducted **design thinking and agile sessions** to conceptualise products
- Official **UI/UX designer and developer**, occasionally did some **graphic design** as well

### Developer and UI/UX Designer

Catalpa.io  
Dili, East Timor  
2016 - 2018

- Designed and developed **native mobile applications**
- Tech stack: **RiotJS, SASS, Bootstrap, NodeJS, Cordova, Android Studio**
- Designed and developed **web applications**
- Worked along side with the Government of East Timor to develop products that helped them to **reduce the social and economic impairments**
- **Developed a social network** for all in-local NGOs to interact with each other

### Developer and Web Designer

Lunatica.biz  
Madrid, Spain  
2015 - 2016

- Made custom CMS systems for a wide range of clients
- **Editorial design, branding design and UI/UX design**

||

**I am a Product-Minded Leader at the intersection of Data Foundations, AI, and UX. I help organisations design responsible, business-driven digital experiences—from AI strategy and data governance to product innovation and transformation.**
